Secure Transactions

When you complete a transaction using your McCoy Federal Credit or Debit card with Apple Pay:

- Your name, card number and security code stay private
- You don't give your physical card to anyone
- Apple doesn't share your actual card numbers with retailers
- The retailer receives only a transaction-specific code to process your payment

Because the payment code can only be used once, your accounts are better protected against fraud. And if there is a fraudulent charge, [Visa's Zero Liability policy](#) protects you.

Enrollment is simple! It starts with your iTunes account.

Please note: To ensure your enrollment goes smoothly, you must use the same contact information for your iTunes and Apple Pay accounts that you use for your McCoy Federal Visa credit or debit card. If there is a discrepancy, it will delay your enrollment. If your phone number, email address or mailing address has changed but you have not yet updated that contact information in your McCoy Federal or iTunes account, you should update the incorrect information before enrolling in Apple Pay.

If your McCoy Federal Visa Credit or Debit Card is already connected to your iTunes account, just enter the card's security code when you enroll in Apple Pay. If your McCoy Federal Visa Credit or Debit Card is not currently connected to your iTunes account, it's still easy to add it into Apple Pay: Just snap a picture of the McCoy Federal Visa Credit or Debit card with your iPhone or iPad or enter it into Passbook.

After you've enrolled your McCoy Federal Visa Credit or Debit Card, it's easy to make it your default payment option:

- If your McCoy Federal card is the first card you enrolled into Apple Pay, you don't have to do anything! It is already your default card.
- If a different card is your current default, just open "Passbook & Apple Pay" (in Settings), then click "Default Card" and select the McCoy Federal Visa Credit or Debit Card in the displayed list of your enrolled cards.

Notice to McCoy Federal Visa Debit cardholders:

McCoy Federal recommends that you select "credit" when paying with a debit card, because older merchant payment terminals may not always work successfully with debit cards in Apple Pay.

How to use Apple Pay in participating stores:

1. Look for the Pay Wave or Apple Pay symbol at checkout and hold your phone near the contactless reader.

Pay with Touch ID

2. Place your finger on the Touch ID™. Or, you may need to enter a passcode and sign a receipt.

Done

3. Keep your phone by the reader until it vibrates and beeps, indicating your payment was accepted.

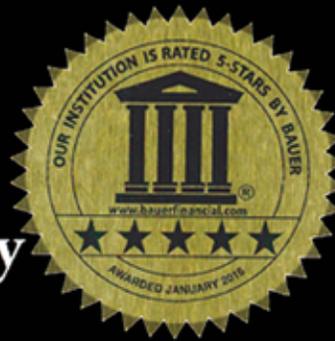

Easy. Secure. Private

Making payments with Apple Pay is easy. The entire transaction is secure, as your credit and debit card numbers aren't stored on the device or on Apple's server, so they're never shared with the merchant. And, if your iPhone is ever lost or stolen, just use the "Find My iPhone" feature.
